Projects

Recruitment Manager - Salesforce

Sep 2020 - Oct 2020

- It is a portal where candidates can apply to various jobs and recruiters can view the application and carry forward the application in various stages
- There will be emails sent for every change of stage of application to both recruiters and candidates. For example, when the application is rejected, when the recruiter scheduled interview, and after the job is offered successfully to the candidate
- After the candidate submits an application, the candidate can also view the status of application in the same portal. Recruiter's portal has options for scheduling interviews and adding ratings for candidates.

Comparison of various algorithms for Human Activity Recognition using smartphone dataset - Python

Jan 2020 - April 2020

- Collected dataset of smartphone sensors and used different machine learning classification methods to classify into five activities – (Walking upstairs, walking downstairs, Sitting, Standing, Sleeping)
- Made a comparison of accuracies and runtime of different algorithms to show the best and effective method
